Summer

LGBTQIA+

By Lucy, Isabella, Josie & Khalya & Poppy

Pride month is a holiday in which all people celebrate the fact we have the right to be who we want to be. It is also an opportunity to spread awareness about homophobia, transphobia and biphobia. Parades happen to honor history and forgotten heroes who helped to make this month possible.

Did you Know?

The LGBT pride flag was designed by San Francisco artist Gilbert Baker in 1978. It originally comprised of 8 stripes.

The rainbow flag shows that it doesn't matter what you believe or who you are, you are not the only one and we can celebrate all together like one big family. We feel that it is important that all children in our school feel the same way. We want all our children to feel safe to be who they want to be. Mr Jones and Miss Sherry have been working hard on gaining us the Rainbow Flag award. This award is a national quality assurance framework for all schools and youth organisations. The award focuses on positive LGBTQIA+ inclusion and visibility.

We are very proud of all our children and encourage them to just be themselves!

Best Summer Activities to do in the Holidays!

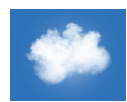

By Zalan

- * Start a summer journal— document your summer for your new teacher.
- * Stargaze at night—enjoy the summer evenings
- * Go swimming
- * Visit the Chester Zoo
- * Go to the beach
- * Go camping—toast marshmallows
- * Fly a Kite
- * Play mini golf

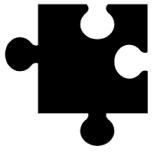

HAVE FUN!

Time to Say Goodbye!

By ETTY, Aahana and Ben

Year 6 2023

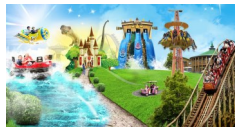

Our teachers have put in so much effort to make this year at Dovedale the BEST yet! Here are some of the fun activities that have taken place this year~:

Residential—We have so much fun at YMCA Lakeside. We took part in many great activities including archery, canoeing and raft building.

Gullivers World—We went to Gulliver's World at the end of June. We went on many rides and had so much fun with our teachers.

Leavers Play—Year 6 worked hard to put together a fun-filled play to amuse the audience. Many of us took on the role of some of our teachers including Mr Smith. It made many of teachers laugh and cry!

We have had a great time at Dovedale and feel ready to go on to our next chapter. We are now ready to hand over to our current Year 5's. We hope you love Y6 as much as we did..

We wanted to take this opportunity to thank all the teachers and staff at Dovedale for a great start to our education. Dovedale really is the BEST school.

'Imagine, Believe, Achieve'

Good luck Year 6! You will be amazing in your new school.

Thank you for all your support this year. We have loved being Dovedale Editors. Have a lovely summer!

Sports Day

By Chloe, Ava & Bella

Oh my goodness, what an eventful sports day!!! With so much to write about we tried to squeeze it in this space. Year six started with the running races, whilst year five enjoyed all the other activities that were offered. The two years then switched round and year five put on an excellent performance. Unfortunately due to unwanted bad weather years Reception, One and Two could not partake in their sports day on the Friday meaning it was postponed to the following Thursday for years One and Two. Reception were put on the Friday session. The events and activities were a joy to do, yet again the sports day has not failed to impress. It was wonderful to see so many parents able to join us to enjoy this event. Thank you to our PTA who provided refreshments. Year 1 & 2 did so well with all the activities and we have some fabulous runners. Reception organized their sports day slightly differently. It was lovely to see them all dressed in their team colours and working hard to gain points for their team. Well done to all our teachers who took part in racing this year. We believe a lot of them are already in training for next year!

Jokes in the Sun! - By Chloe, Ava & Bella

◆ What do Messi and a magician have in common?

They both do hat-tricks

◆ What do you call a bear with no teeth?

A gummy bear

◆ What do you call a potato with glasses who likes to watch TV?

A spec-tator

◆ What did the sea say to the pirate?

Nothing—it just waved

◆ Why are obtuse triangles always sad?

Because they are never right.

◆ What did the triangle say to the circle?

You're pointless
