

Jigsaw PSHE / RSE progression of skills map

Jigsaw, the mindful approach to PSHE, is a progressive and spiral scheme of learning. In planning the lessons, Jigsaw PSHE ensures that learning from previous years is revisited and extended, adding new concepts, knowledge and skills, year on year as appropriate. The table below draws out the spiral knowledge and skills progression within all six Puzzles (units of work) including the key vocabulary used in each year group; explicit links to the DfE statutory Relationships and Health Education outcomes have been made in each Puzzle.

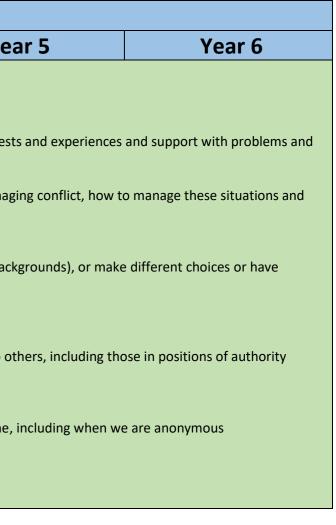

INTENT: Jigsaw holds children at its heart, and its cohesive vision helps children understand and value how they fit into and contribute to the world. With strong emphasis on emotional literacy, building resilience and nurturing mental and physical health, Jigsaw 3-11 properly equips schools to deliver engaging and relevant PSHE within a whole-school approach. Jigsaw lessons also include mindfulness allowing children to advance their emotional awareness, concentration, focus and self-regulation.

IMPLEMENTATION: Jigsaw 3-11 offers a comprehensive programme for Primary PSHE, including statutory Relationships and Health Education, in a spiral, progressive and fully planned scheme of work, giving children relevant learning experiences to help them navigate their world and to develop positive relationships with themselves and others.

IMPACT: This can be established through assessment identified in the key learning.

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
overview Being Me in My World	In this Puzzle (unit), the children learn about how they have similarities and differences from their friends and how that is OK. They begin working on recognising and managing their feelings, identifying different ones and the causes these can have. The children learn about working with others and why it is good to be kind and use gentle hands. They discuss children's rights, especially linked to the right to learn and the right to play. The children learn what it means to be responsible.	In this Puzzle (unit), the children are introduced to their Jigsaw Journals and discuss their Jigsaw Charter. As part of this, they discuss rights and responsibilities, and choices and consequences. The children learn about being special and how to make everyone feel safe in their class as well as recognising their own safety.	In this Puzzle (unit), the children discuss their hopes and fears for the year ahead – they talk about feeling worried and recognising when they should ask for help and who to ask. They learn about rights and responsibilities; how to work collaboratively, how to listen to each other and how to make their classroom a safe and fair place. The children learn about choices and the consequences of making different choices, set up their Jigsaw Journals and make the Jigsaw Charter.	In this Puzzle (unit), the children learn to recognise their self-worth and identify positive things about themselves and their achievements. They discuss new challenges and how to face them with appropriate positivity. The children learn about the need for rules and how these relate to rights and responsibilities. They explore choices and consequences, working collaboratively and seeing things from other people's points of view. The children learn about different feelings and the ability to recognise these feelings in themselves and others. They set up their Jigsaw Journals and establish the Jigsaw Charter.	In this Puzzle (unit), the children explore being part of a team. They talk about attitudes and actions and their effects on the whole class. The children learn about their school and its community, who all the different people are and what their roles are. They discuss democracy and link this to their own School Council, what its purpose is and how it works. The children learn about group work, the different roles people can have, how to make positive contributions, how to make collective decisions and how to deal with conflict. They also learn about considering other people's feelings. They refresh their Jigsaw Charter and set up their Jigsaw Journals.	In this Puzzle (unit), the children think and plan for the year ahead, goals they could set for themselves as well as the challenges they may face. They explore their rights and responsibilities as a member of their class, school, wider community and the country they live in. The children learn about their own behaviour and its impact on a group as well as choices, rewards, consequences and the feelings associated with each. They also learn about democracy, how it benefits the school and how they can contribute towards it. They revisit the Jigsaw Charter and set up their Jigsaw Journals.	In this Puzzle (unit), the children discuss their year ahead, they learnt to set goals and discuss their fears and worries about the future. The children learn about the United Nations Convention on the Rights of the Child and that these are not met for all children worldwide. They discuss their choices and actions and how these can have far- reaching effects, locally and globally. The children learn about their own behaviour and how their choices can result in rewards and consequences and how they feel about this. They explore an individual's behaviour and the impact it can have on a group. They learn talk about democracy, how it benefits the school and how they can contribute towards it. They establish the Jigsaw Charter and set up their Jigsaw Journals.

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
overview Celebrating Difference	In this Puzzle (unit), children are encouraged to think about things that they are good at whilst understanding that everyone is good at different things. They discuss being different and how that makes everyone special but also recognise that we are the same in some ways. The children share their experiences of their homes and are asked to explain why it is special to them. They learn about friendship and how to be a kind friend and how to stand up for themselves if someone says or does something unkind to them.	In this Puzzle (unit), the children explore the similarities and differences between people and how these make us unique and special. The children learn what bullying is and what it isn't. They talk about how it might feel to be bullied and when and who to ask for help. The children discuss friendship, how to make friends and that it is OK to have differences/be different from their friends. The children also discuss being nice to and looking after other children who might be being bullied.	In this Puzzle (unit), the children learn about recognise gender stereotypes, that boys and girls can have differences and similarities and that is OK. They explore how children can be bullied because they are different, that this shouldn't happen and how they can support a classmate who is being bullied. The children share feelings associated with bullying and how and where to get help. They explore similarities and differences and that it is OK for friends to have differences without it affecting their friendship.	In this Puzzle (unit), the children learn about families, that they are all different and that sometimes they fall out with each other. The children practise methods to calm themselves down and discuss the 'Solve it together' technique. The children revisit the topic of bullying and discuss being a witness (bystander); they discover how a witness has choices and how these choices can affect the bullying that is taking place. The children also talk about using problem- solving techniques in bullying situations. They discuss name- calling and practise choosing not to use hurtful words. They also learn about giving and receiving compliments and the feelings associated with this.	In this Puzzle (unit), the children consider the concept of judging people by their appearance, of first impressions and of what influences their thinking on what is normal. They explore more about bullying, including online bullying and what to do if they suspect or know that it is taking place. They discuss the pressures of being a witness and why some people choose to join in or choose to not tell anyone about what they have seen. The children share their own uniqueness and what is special about themselves. They talk about first impressions and when their own first impressions of someone have changed.	In this Puzzle (unit), the children explore culture and cultural differences. They link this to racism, debating what it is and how to be aware of their own feelings towards people from different cultures. They revisit the topic of bullying and discuss rumour spreading and name- calling. The children learn that there are direct and indirect ways of bullying as well as ways to encourage children to not using bullying behaviours. The children consider happiness regardless of material wealth and respecting other people's cultures.	In this Puzzle (unit), the children discuss differences and similarities and that, for some people, being different is difficult. The children learn about bullying and how people can have power over others in a group. They discover strategies for dealing with this as well as wider bullying issues. The children learn about people with disabilities and look at specific examples of disabled people who have amazing lives and achievements.

ARYSCH			
Taught knowledge (Key objectives are in bold)	 Know what being unique means Know the names of some emotions such as happy, sad, frightened, angry Know why having friends is important Know some qualities of a positive friendship Know that they don't have to be 'the same as' to be a friend Know what being proud means and that people can be proud of different things Know that people can be good at different things Know that people can be good at different things Know that people have differences and similarities Know that people can be good at different things Know that people have different Know that people can be good at different things Know that people have different Know that people have different Know that people can be good at different things Know that people have different Know that people have different Know that people have different Know different ways of making friends Know different ways to stand up for myself 	 Know the difference between a one-off incident and bullying Know that sometimes people get bullied because of difference Know that friends can be different and still be friends Know there are stereotypes about boys and girls Know where to get help if being bullied Know that it is OK not to conform to gender stereotypes Know that it is QK not to conform to gender stereotypes Know that it is QK not to conform to gender stereotypes Know that it is QK not to conform to gender stereotypes Know that it is QK not to conform to gender stereotypes Know that it is QK not to conform to gender stereotypes Know that it is QK not to conform to gender stereotypes Know that it is QK not to conform to gender stereotypes Know that it is QK not to conform to gender stereotypes Know that is good to be yourself Know the difference between right and wrong and the role that choice has to play in this Know that sometimes family members don't get along and some reasons for this 	 Know that some forms of bullying are harder to identify e.g. tactical ignoring, cyber-bullying Know the reasons why witnesses sometimes join in with bullying and don't tell anyone Know that sometimes people make assumptions about a person because of the way they look or act Know there are influences that can affect how we judge a person or situation Know what to do if they think bullying is or might be taking place Know that first impressions can change Know that first impressions can change Know that sometimes people make assumptions about a person or situation

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
overview Celebrating Difference	In this Puzzle, the children consider challenges and facing up to them. They discuss not giving up and trying until they have achieved their goal. The children are encouraged to think about jobs that they might like to have when they are older and are taught to associate what they learn now with being able to have the job they want. They also talk about achieving goals and the feelings linked to this.	In this Puzzle, the children talk about setting simple goals, how to achieve them as well as overcoming difficulties when they try. The children learn to recognise the feelings associated with facing obstacles to achieving their goals as well as when they achieve them. They discuss partner working and how to do this well.	In this Puzzle, the children explore setting realistic goals and how they can achieve them. They discuss perseverance when they find things difficult as well as recognising their strengths as a learner. The children consider group work and reflect on with whom they work well and with whom they don't. They also reflect on sharing success with other people.	In this Puzzle, the children look at examples of people who have overcome challenges to achieve success and discuss what they can learn from these stories. The children identify their own dreams and ambitions and discuss how it will feel when they achieve them. They discuss facing learning challenges and identify their own strategies for overcoming these. The children consider obstacles that might stop them from achieving their goals and how to overcome these. They reflect on their progress and successes and	In this Puzzle, the children consider their hopes and dreams. They discuss how it feels when dreams don't come true and how to cope with/overcome feelings of disappointment. The children discuss making new plans and setting new goals even if they have been disappointed. The class explore group work and overcoming challenges together. They reflect on their successes and the feelings associated with overcoming a challenge.	In this Puzzle, the children share their dreams and goals and how they might need money to help them achieve them. They consider jobs that people they know do, they look at the fact that some jobs pay more money than others and reflect on what types of jobs they might like to do when they are older. The children look as the similarities and differences between themselves (and their dreams and goals) and someone from a different culture.	In this Puzzle, the children share their own strengths and further stretching themselves by setting challenging and realistic goals. They discuss the learning steps they will need to take as well as talking about how to stay motivated. The children reflect on various global issues and explore places where people may be suffering or living in difficult situations; whilst doing this, they reflect on their own emotions linked to this learning. The children also discover what they think their classmates like and admire about them, as well as working on giving others praise and compliments.

MARYSCHU	Physical Health and Well-Being – By end of primary, pupils should know:
	Physical Health and Well-Being – By end of primary, pupils should know: Mental well-being (H1) that mental well-being is a normal part of daily life, in the same way as physical health (H2) that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in r (H3) how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings (H4) how to judge whether what they are feeling and how they are behaving is appropriate and proportionate (H5) the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness (H6) simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests (H7) isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support (H8) that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being (H9) where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried ability to control their emotions (including issues arising online)
	 (H10) it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especial internet safety and harms (H11) that for most people the internet is an integral part of life and has many benefits (H12) about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content of well-being (H17) where and how to report concerns and get support with issues online. Physical health and fitness (H18) the characteristics and mental and physical benefits of an active lifestyle (H19) the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active (H20) the risks associated with an inactive lifestyle (including obesity) (H21) how and when to seek support including which adults to speak to in school if they are worried about their health.
	Healthy eating (H22) what constitutes a healthy diet (including understanding calories and other nutritional content) (H23) the principles of planning and preparing a range of healthy meals (H24) the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. t Drugs, alcohol (H25) the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking. Health and prevention (H26) how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body (H28) the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn
	 (H28) the importance of sufficient good quality sleep for good hearth and that a fact of sleep can affect weight, mode and ability to learn (H30) about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing (H31) the facts and science relating to allergies, immunisation and vaccination. Basic first aid (H32) how to make a clear and efficient call to emergency services if necessary (H33) concepts of basic first-aid, for example dealing with common injuries, including head injuries.

EYFS	Year 1	Year 2	Year 3	Year 4	Ye
Children are introduced to the key relationships in their lives. They learn about families and the different roles people can have in a family. They explore the friendships they have and what makes a good friend. They are introduced to simple strategies they can use to mend friendships. The children also practise Jigsaw's Calm Me and how they can use this when feeling upset or angry.	Children's breadth of relationships is widened to include people they may find in their school community. They consider their own significant relationships (family, friends and school community) and why these are special and important. As part of the lessons on healthy and safe relationships, children learn that touch can be used in kind and unkind ways. This supports later work on safeguarding. Pupils also consider their own personal attributes as a friend, family member and as part of a community, and are encouraged to celebrate these.	Learning about family relationships widens to include roles and responsibilities in a family and the importance of co- operation, appreciation and trust. Friendships are also revisited with a focus on falling out and mending friendships. This becomes more formalised and the children learn and practise two different strategies for conflict resolution (Solve it together and Mending Friendships). Children consider the importance of trust in relationships and what this feels like. They also learn about two types of secret, and why 'worry secrets' should always be shared with a trusted adult. Children reflect upon different types of physical contact in relationships, which are acceptable and which	In this Puzzle, children revisit family relationships and identify the different expectations and roles that exist within the family home. They identify why stereotypes can be unfair and may not be accurate, e.g. Mum is the carer, Dad goes to work. They also look at careers and why stereotypes can be unfair in this context. They learn that families should be founded on love, respect, appreciation, trust and co-operation. Children are reminded about the Solve it together technique for negotiating conflict situations and the concept of a win-win outcome is introduced. Online relationships through gaming and apps are explored and children are introduced to	Learning in this year group starts focussing on the emotional aspects of relationships and friendships. With this in mind, children explore jealousy and loss/ bereavement. They identify the emotions associated with these relationship changes, the possible reasons for the change and strategies for coping with the change. The children learn that change is a natural in relationships and they will experience (or may have already experienced) some of these changes. Children revisit skills of negotiation particularly to help manage a change in a relationship. They also learn that sometimes it is better if relationships end, especially if they are causing negative	Children learn abo of self-esteem and boosted. This is in online context as mental health car excessive compar This leads onto a that allow the chi and reflect upon a and negative onlin contexts including networking. Year 6

In this Puzzle, the children learn more about mental health and how to take care of their own mental well-being. They explore the grief cycle and its various stages, and discuss the different causes of grief and loss. The children learn about people who can try to control them or have power over them. They investigate online safety, learning how to judge if something is safe and helpful, as well as talking about communicating with friends and family in a positive and safe way.

TRYSE			1	1		
		strategies for being assertive when someone is hurting them or being unkind. The children also learn about people who can help them if they are worried or scared.	they are part of a global community and they are connected to others they don't know in many ways, e.g. through global trade. They investigate the wants and needs of other children who are less fortunate and compare these with their own. Children's universal rights are also revisited.	Children are taught that relationship endings can be amicable.	to be whoever they want. Rights, responsibilities and respect are revisited with an angle on technology use. Screen time is also discussed and children find ways to reduce their own screen time. This Puzzle aims to help children to be more discerning when viewing anything online or on social media.	
Taught knowledge (Key objectives are in bold)	 Know what a family is Know that different people in a family have different responsibilities (jobs) Know some of the characteristics of healthy and safe friendships Know that friends sometimes fall out Know that friends sometimes fall out Know that nukind words can never be taken back and they can hurt Know how to use Jigsaw's Calm Me to help when feeling angry Know some reasons why others get angry Know they help 	 of forms of physical contact within a family are ging, Know how to stay stop if someone is hurting them Know there are good secrets and worry secrets and why it is important to share worry secrets Know what trust is Know that everyone's family is different Know that families function well when there is trust, respect, care, love and co-operation Know that friendships have ups and downs and sometimes change with time 	 Know that different family members carry out different roles or have different responsibilities within the family Know some of the skills of friendship, e.g. taking turns, being a good listener Know some strategies for keeping themselves safe online Know that they and all children have rights (UNCRC) Know that gender stereotypes can be unfair, e.g. Mum is always the carer, Dad always goes to work etc Know how some of the actions and work of people around the world help and influence my life Know the lives of children around the world can be different from their own 	 Know some reasons why people feel jealousy Know that loss is a normal part of relationships Know that negative feelings are a normal part of loss Know that sometimes it is better for a friendship/relationship to end if it is causing negative feelings or is unsafe Know that jealousy can be damaging to relationships Know that memories can support us when we lose a special person or animal 	 Know that there are rights and responsibilities in an online community or social network Know that there are rights and responsibilities when playing a game online Know that too much screen time isn't healthy Know how to stay safe when using technology to communicate with friends Know that a personality is made up of many different characteristics, qualities and attributes Know that belonging to an online community can have positive and negative consequences 	 Know that it is important to take care of their own mental health Know ways that they can take care of their own mental health Know the stages of grief and that there are different types of loss that cause people to grieve Know that sometimes people can try to gain power or control them Know some of the dangers of being 'online' Know how to use technology safely and positively to communicate with their friends and family

- entify when an online unity/social media feels risky, fortable, or unsafe
- ggest strategies for safe online/ social
- y how to report online/social network
- entify when an online s safe or unsafe
- ggest ways to monitor duce screen time
- ggest strategies for ing unhelpful res online or in social rks

- Recognise that people can get problems with their mental health and that it is nothing to be ashamed of
- Can help themselves and others when worried about a mental health problem
- Recognise when they are feeling grief and have strategies to manage them
- Demonstrate ways they could stand up for themselves and their friends in situations where others are trying to gain power or control
- Can resist pressure to do something online that might hurt themselves or others
- Can take responsibility for their own safety and wellbeing

Puzzle Overview	EYFS	Year 1	Year 2	Year 3	Year 4	Yea
Changing Me	Children are encouraged to think about how they have changed from being a baby and what may change for them in the future. They consolidate the names and functions of some of the main parts of the body and discuss how these have changed. They learn that our bodies change in lots of different ways as we get older. Children understand that change can bring about positive and negative feelings, and that sharing these can help. They also consider the role that memories can have in managing change.	Children are introduced to life cycles, e.g. that of a frog and identify the different stages. They compare this with a human life cycle and look at simple changes from baby to adult, e.g. getting taller, learning to walk, etc. They discuss how they have changed so far and that people grow up at different rates. As part of a school's safeguarding duty, pupils are taught the correct words for private parts of the body (those kept private by underwear: vagina, anus, penis, testicles, vulva). They are also taught that nobody has the right to hurt these parts of the body. Change is discussed as a natural and normal part of getting older which can bring about happy and sad feelings. Children practise a range of skills to help manage their feelings and learn how to access help if they are worried about change, or if someone is hurting them.	In this Puzzle, children compare different life cycles in nature, including that of humans. They reflect on the changes that occur (not including puberty) between baby, toddler, child, teenager, adult and old age. Within this, children also discuss how independence, freedoms and responsibility can increase with age. As part of a school's safeguarding duty, pupils are re- taught the correct words for private parts of the body (those kept private by underwear: vagina, anus, penis, testicle, vulva). They are also reminded that nobody has the right to hurt these parts of the body, including a lesson on inappropriate touch and assertiveness. Children practise a range of strategies for managing feelings and emotions. They are also taught where they can get help if worried or frightened. Change is taught as a natural and normal part of growing up and the range of emotions that can occur with change are explored and discussed.	This Puzzle begins learning about babies and what they need to grow and develop including parenting. Children are taught that it is usually the female that carries the baby in nature. This leads onto lessons where puberty is introduced. Children first look at the outside body changes in males and females. They learn that puberty is a natural part of growing up and that it is a process for getting their bodies ready to make a baby when grown-up. Inside body changes are also taught. Children learn that females have eggs (ova) in their ovaries and these are released monthly. If unfertilised by a male's sperm, it passes out of the body as a period. Sexual intercourse and the birth of the baby are not taught in this year group. Children discuss how they feel about puberty and growing up and there are opportunities for them to seek reassurance if anything is worrying them.	In this Puzzle, bodily changes at puberty are revisited with some additional vocabulary, particularly around menstruation. Sanitary health is taught, including introducing pupils to different sanitary and personal hygiene products. Conception and sexual intercourse are introduced in simple terms so the children understand that a baby is formed by the joining of an ovum and sperm. They also learn that the ovum and sperm carry genetic information that carry personal characteristics. The Puzzle ends by looking at the feelings associated with change and how to manage these. Children are introduced to Jigsaw's Circle of change model as a strategy for managing future changes.	In this Puzzle, the of self-esteem, self-in image. They learn is perceptions about others, and these in wrong. They also re- social media and the promote unhelpful how to manage this revisited in further bodily changes in in Sexual intercourse slightly more detai previous year. Chil encouraged to ask seek clarification a they don't underst details about pregn introduced includin about the develop and some simple e alternative ways of IVF. Children learn is a personal choice contraceptive opti- are not taught as t appropriate. Children look ng a teenager means n increase in and responsibilities. der the perceptions eenagers and reflect re always accurate, re always moody; all а iend, etc.

Year 6

In this Puzzle, the children learn about puberty in boys and girls and the changes that will happen; they reflect on how they feel about these changes. The children also learn about childbirth and the stages of development of a baby, starting at conception. They explore what it means to be being physically attracted to someone and the effect this can have upon the relationship. They learn about different relationships and the importance of mutual respect and not pressuring/being pressured into doing something that they don't want to. The children also learn about self-esteem, why it is important and ways to develop it. Finally, they look at the transition to secondary school (or next class) and what they are looking forward to/are worried about and how they can prepare themselves mentally.

Taught Knowledge (Key objectives are in bold)	 Know the names and functions of some parts of the body (see vocabulary list) Know that we grow from baby to adult Know who to talk to if they are feeling worried Know that sharing how they feel can help solve a worry Know that remembering happy times can help us move on 	 Know the names of male and female private body parts Know that there are correct names for private body parts and nicknames, and when to use them Know which parts of the body are private and that they belong to that person and that nobody has the right to hurt these Know who to ask for help if they are worried or frightened Know that animals including humans have a life cycle Know that changes happen when we grow up Know that people grow up at different rates and that is normal Know that learning brings about change 	 Know the physical differences between male and female bodies Know that private body parts are special and that no one has the right to hurt these Know who to ask for help if they are worried or frightened Know there are different types of touch and that some are acceptable and some are unacceptable Know the correct names for private body parts Know that life cycles exist in nature Know that aging is a natural process including old age Know that some changes are out of an individual's control Know how their bodies have changed from when they were a baby and that they will continue to change as they age 	 Know that the male and female body needs to change at puberty so their bodies can make babies when they are adults Know some of the outside body changes that happen during puberty Know some of the changes on the inside that happen during puberty Know that in animals and humans lots of changes happen between conception and growing up Know that in nature it is usually the female that carries the baby Know that in humans a mother carries the baby Know that in humans a mother carries the baby in her uterus (womb) and this is where it develops Know that babies need love and care from their parents/carers Know some of the changes that happen between being a baby and a child 	 Know that personal characteristics are inherited from birth parents and this is brought about by an ovum joining with a sperm Know that babies are made by a sperm joining with an ovum Know the names of the different internal and external body parts that are needed to make a baby Know how the female and male body change at puberty Know that change can bring about a range of different emotions Know that personal hygiene is important during puberty and as an adult Know that change is a normal part of life and that some cannot be controlled and have to be accepted 	 Know how girls' and boys' bodies change during puberty and understand the importance of looking after themselves physically and emotionally Know that sexual intercourse can lead to conception Know that some people need help to conceive and might use IVF Know that becoming a teenager involves various changes and also brings growing responsibility Know what perception means and that perceptions can be right or wrong 	 Know how girls' and boys' bodies change during puberty and understand the importance of looking after themselves physically and emotionally Know how a baby develops from conception through the nine months of pregnancy and how it is born Know how being physically attracted to someone changes the nature of the relationship Know the importance of self-esteem and what they can do to develop it Know what they are looking forward to and what they are worried about when thinking about transition to secondary school/moving to their next class
Social and Emotional skills (Key objectives are in bold)	 Recognise that changing class can elicit happy and/or sad emotions Can say how they feel about changing class/ growing up Can identify how they have changed from a baby 	 Understand and accept that change is a natural part of getting older Can suggest ways to manage change, e.g. moving to a new class Can identify some things that have changed and some things that have stayed 	 Can say who they would go to for help if worried or scared Can say what types of touch they find comfortable/uncomforta ble Be able to confidently ask someone to stop if 	 Can express how they feel about puberty Can say who they can talk to about puberty if they have any worries Can suggest ways to help them manage feelings during changes they are more anxious about 	 Can appreciate their own uniqueness and that of others Can express any concerns they have about puberty Have strategies for managing the emotions relating to change 	 Can celebrate what they like about their own and others' self-image and body image Can suggest ways to boost self-esteem of self and others Recognise that puberty is a natural process that happens to everybody and that it will be OK for them 	 Recognise ways they can develop their own selfesteem Can express how they feel about the changes that will happen to them during puberty Understand that mutual respect is essential in a boyfriend/girlfriend

	 Can say what might change for them they get older Can identify positive memories from the past year in school/home 	the same since being a baby (including the body) • Can express why they enjoy learning	 they are being hurt or frightened Can appreciate that changes will happen and that some can be controlled and others not Be able to express how they feel about changes Show appreciation for people who are older Can recognise the independence and responsibilities they have now compared to being a baby or toddler Can say what greater responsibilities and freedoms they may have in the future Can say what they are looking forward to in the next year 	 Can identify stereotypical family roles and challenge these ideas, e.g. it may not always be Mum who does the laundry Can express how they feel about babies Can describe the emotions that a new baby can bring to a family Can identify changes they are looking forward to in the next year 	 Can express how they feel about having children when they are grown up Can say who they can talk to about puberty if they are worried Can apply the circle of change model to themselves to have strategies for managing change 	 Can ask questions about puberty to seek clarification Can express how they feel about having a romantic relationship when they are an adult Can express how they feel about having children when they are an adult Can express how they feel about becoming a teenager Can say who they can talk to if concerned about puberty or becoming a teenager/adult 	 relationship and that they shouldn't feel pressured into doing something that they don't want to Recognise how they feel when they reflect on the development and birth of a baby Can celebrate what they like about their own and others' self-image and body image Use strategies to prepare themselves emotionally for the transition (changes) to secondary school

SMSC Links: Every Jigsaw lesson from Early Years to upper primary offers opportunities for children's spiritual, moral, social and cultural (SMSC) development, and this is clearly mapped and balanced across each year group. Likewise, Jigsaw is designed to provide structured opportunities in every lesson to practise and enhance the five skills associated with the emotional literacy (self-awareness, social skills, empathy, motivation and managing feelings). At Jigsaw, we believe that these opportunities are vital for children's development, their understanding of themselves and others and in increasing their capacity to learn.

British Values: Jigsaw PSHE 3-11 supports the British Values of Democracy, Rule of Law, Individual Liberty, Mutual Respect and Tolerance of those of different faiths and beliefs. It has been mapped lesson by lesson against the British Values agenda.
